

WE ARE THE FUTURE

My Daddy made a mistake picking Cornell because they did not have a union. When I choose a grad program in 22 years, I'm going with the union.

We all knew before we accepted Cornell's acceptance offer what we were getting. Our voice was very clear when we said "yes" to Cornell. Now is a poor time to change our minds. This vote (if passed) will affect at least the next 3 years of students. Is it right or fair of us to lock them into a union?
